MMNA COO Jerry Berwanger Media Statement on Illinois Pension Reform

Normal, Illinois (May 16, 2012) – Mitsubishi Motors North America along with the Illinois State Chamber of Commerce and others support Governor Pat Quinn's call to action to reform Illinois' pension laws and review Medicaid policy in what remains of this legislative session. These actions are necessary to improve the business climate of our state by improving Illinois' financial health and by building a platform for sustainable economic growth.

The Governor and the leaders of the General Assembly are to be commended for taking these steps to preserve the financial integrity of Illinois, and thereby enhancing the state as an attractive place to do business.
